

# Global Equity Index Performance

As of August 30, 2024

- In global equity markets, larger market caps resumed leadership in August, with large and mid cap gaining 2.5%. After leading the rally in July, small and micro cap lost some relative ground in August, returning 0.7% and 0.3%, respectively.
- YTD, large cap is the standout performer, up 17.0%, while smaller market caps have failed to keep pace.

Source: MSCI, FTSE Russell

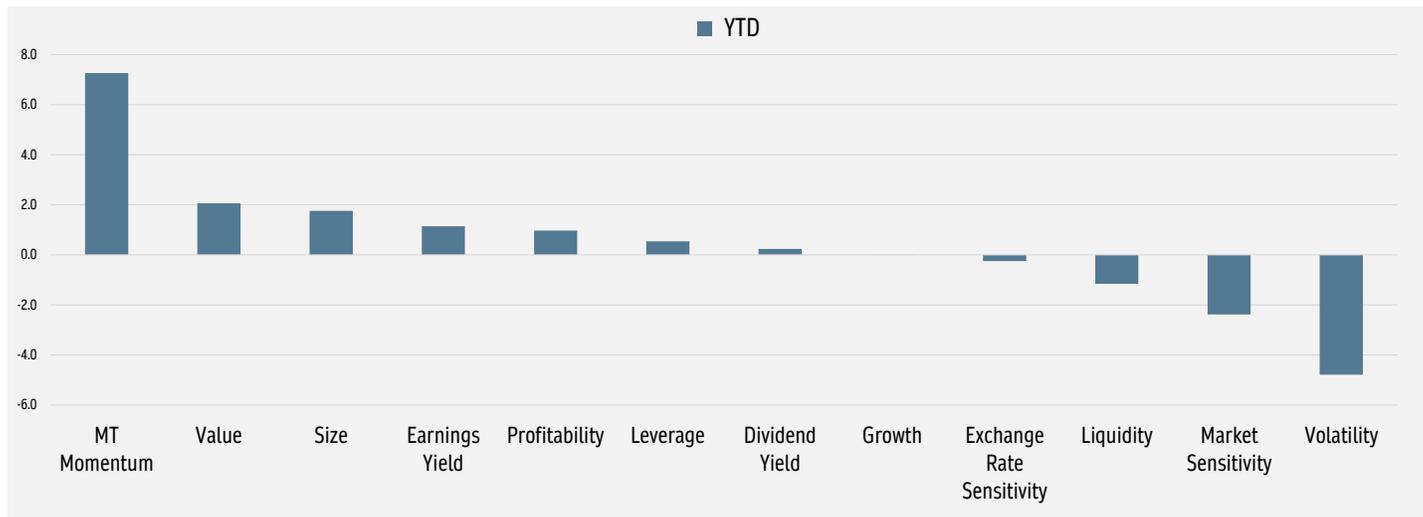

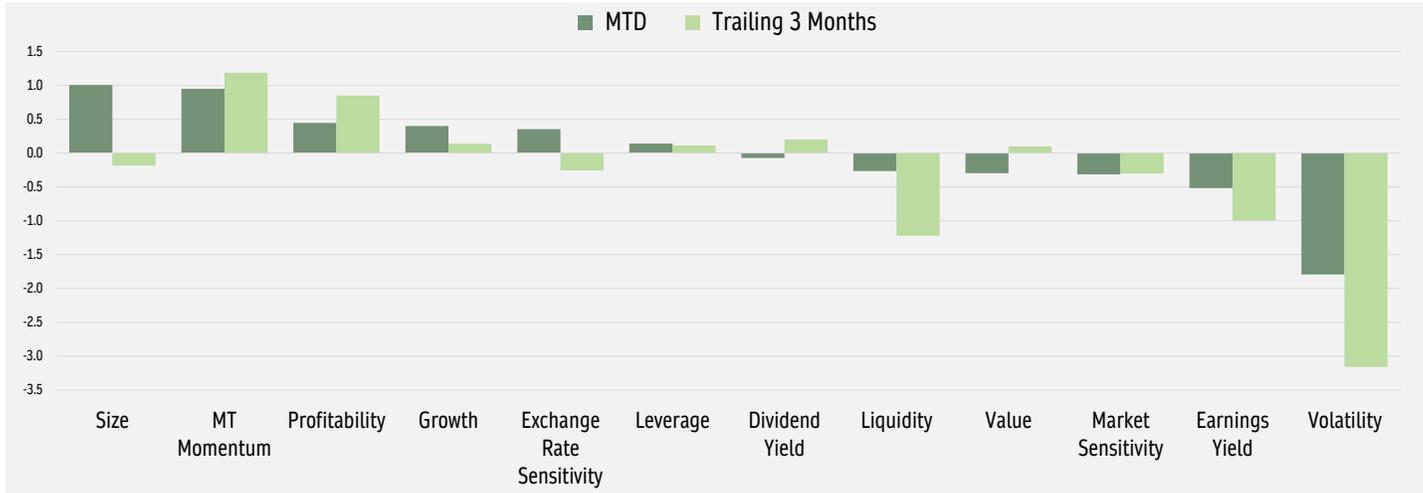

# Factor Performance

As of August 30, 2024

- After one of its worst months on record, the size factor was the best performer in August, followed by momentum and profitability. On the downside, volatility, earnings yield and market sensitivity underperformed in the month.
- YTD, momentum is still on top, followed by value and size, while volatility, market sensitivity and liquidity were the worst performers.

Please see additional disclosures at the end of document.

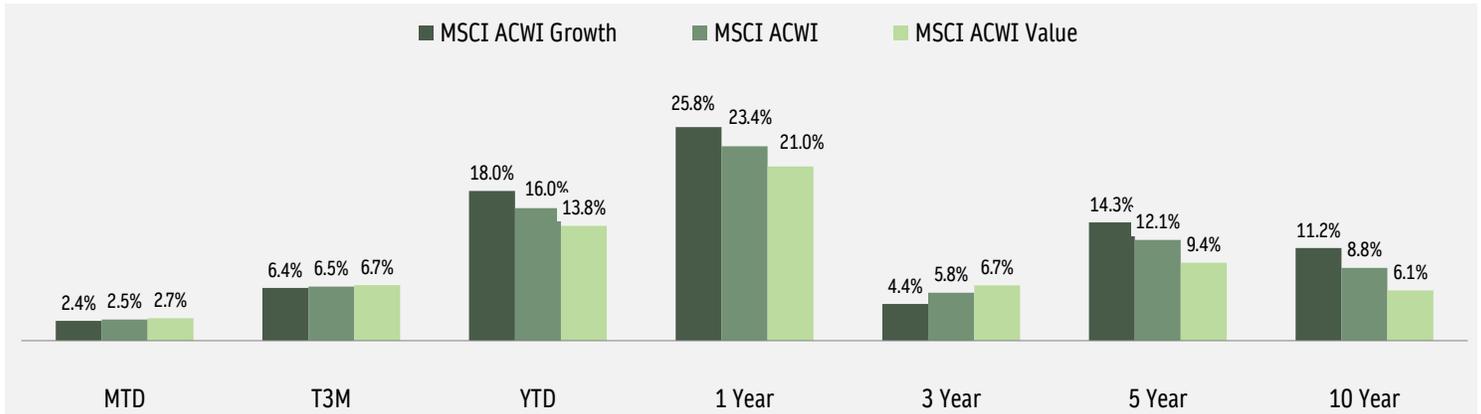

# Style Performance

As of August 30, 2024

- Looking at traditional styles, there was little difference between growth and value indices in August.
- For the trailing 1-year, growth is ahead in large/mid cap, while value holds the lead in small cap.

## Large/Mid Cap

## Small Cap

Please see additional disclosures at the end of document.

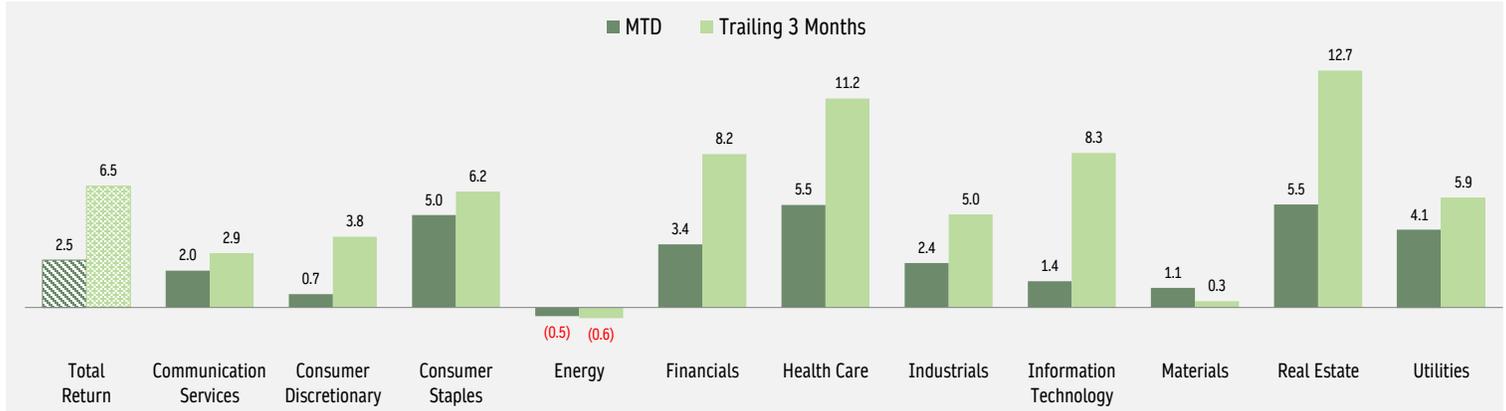

# Sector Performance

As of August 30, 2024

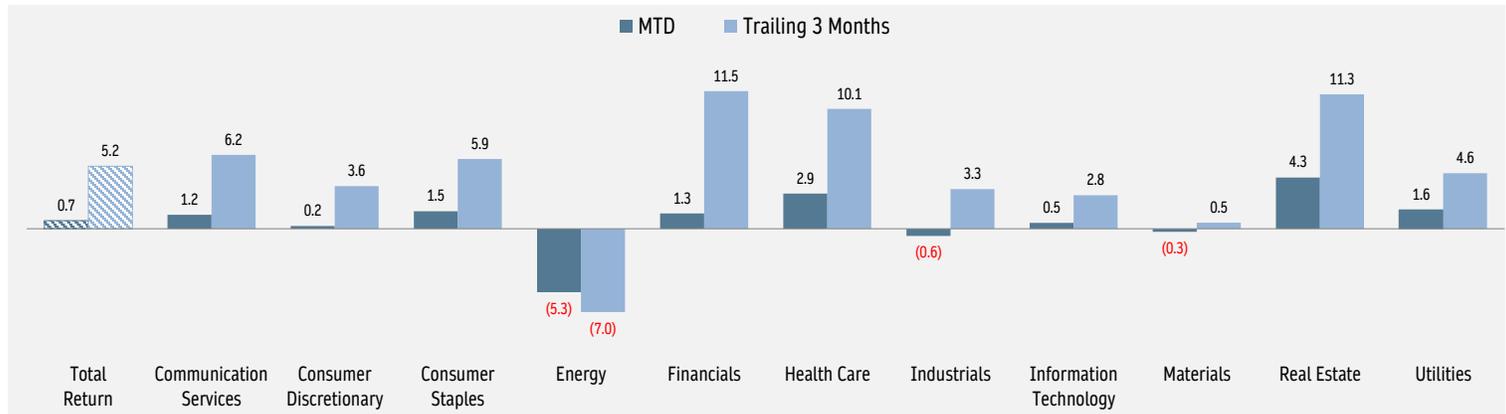

- Real estate, health care, consumer staples and utilities were the best performing sectors in August, while energy lagged.
- For the trailing 3 months, real estate, health care and financials have outperformed, while energy is the sole sector in the red.

Please see additional disclosures at the end of document.

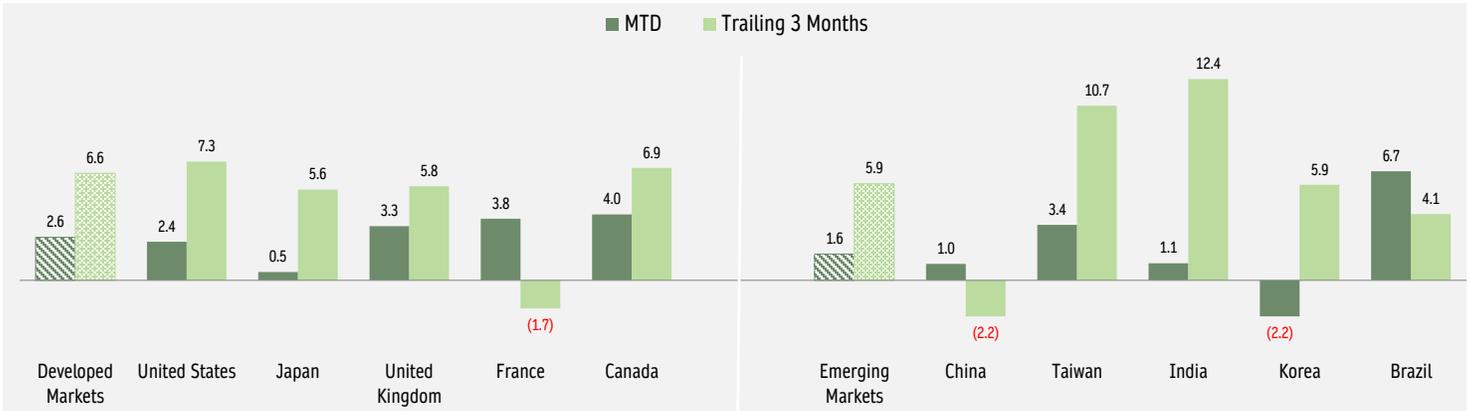

# Country Performance

As of August 30, 2024

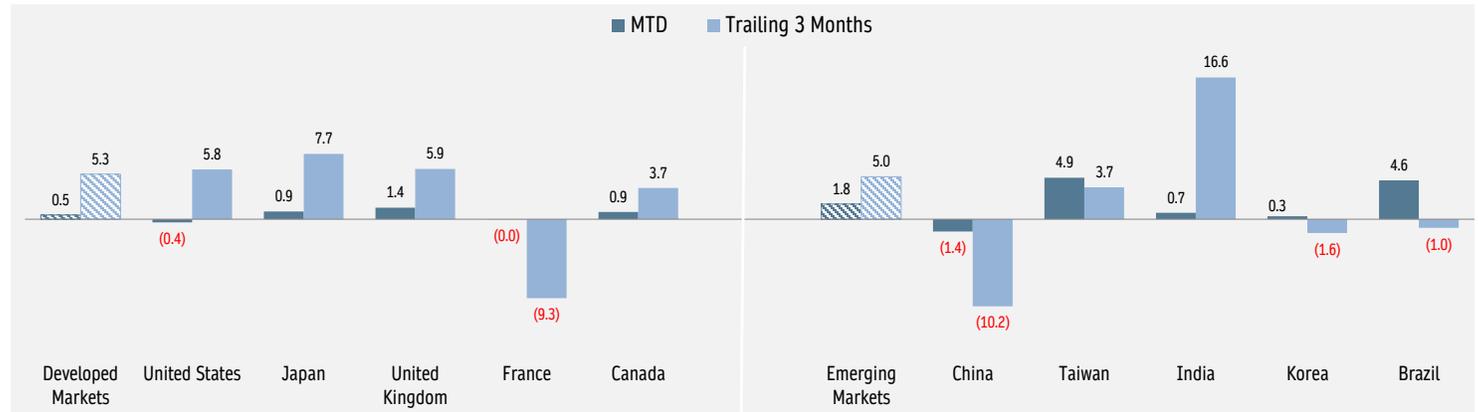

- In large/mid cap, Europe outperformed in August, while emerging markets were weighed down by declines in Korea and lackluster performance in India. In small cap, declines in the US weighed on the index, while Taiwan and Brazil were top performing countries.
- For the trailing 3-month period, strong gains in the US contributed most to index returns, while Europe underperformed. In emerging markets, India logged double digit returns, while China declined.

# MSCI ACWI Index

As of August 30, 2024

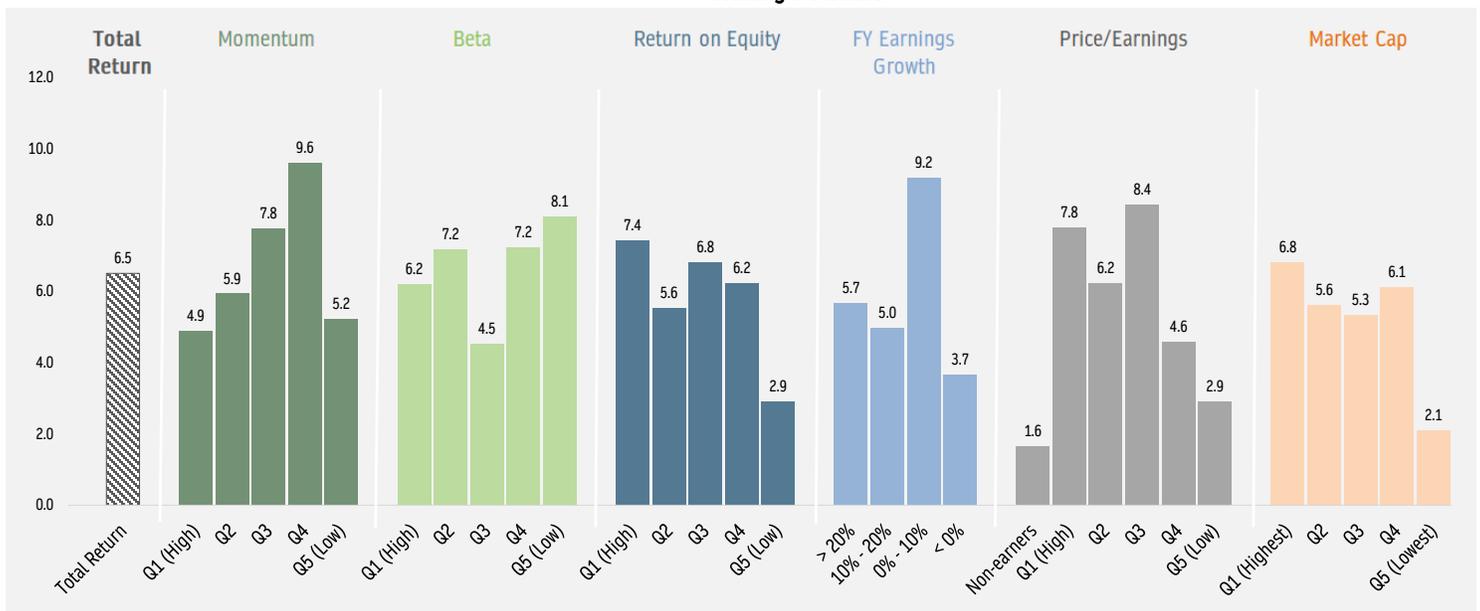

- In large/mid cap, gains were broad-based in August with the exception of non-earners which fell 2.1%.
- For the trailing 3 months, larger market caps outperformed, as did stocks with higher ROE and lower beta.

Please see additional disclosures at the end of document.

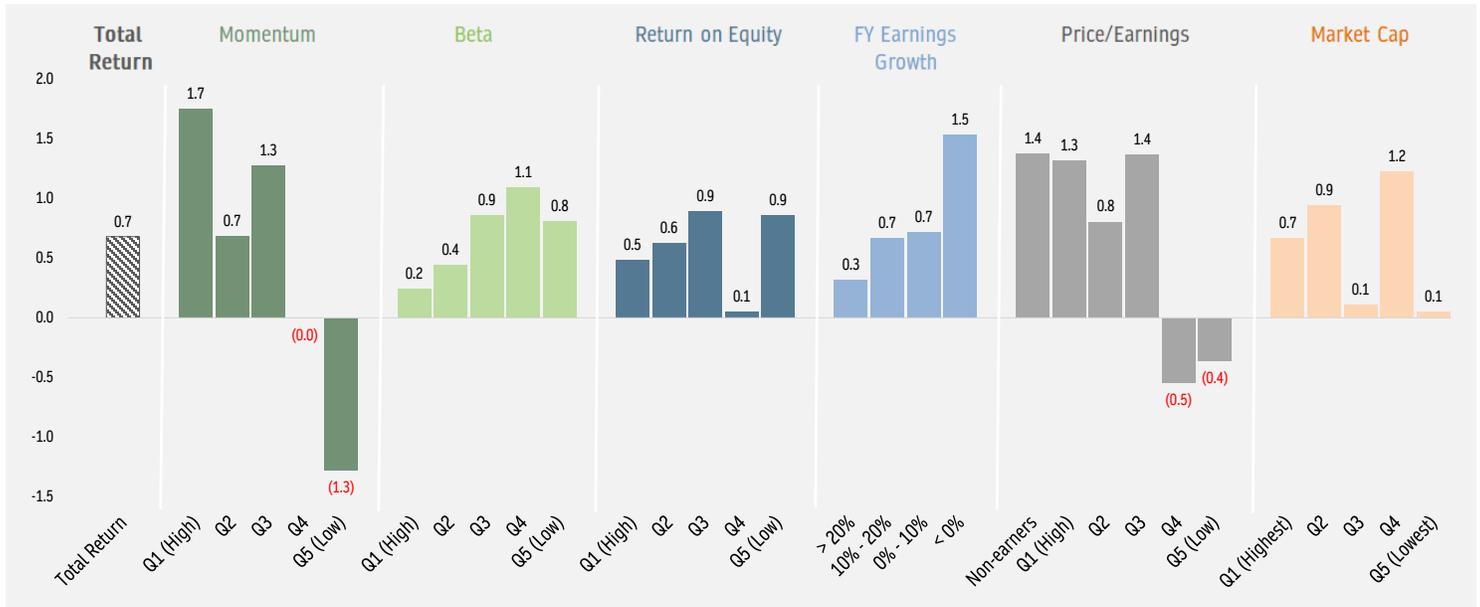

# MSCI ACWI Small Cap Index

As of August 30, 2024

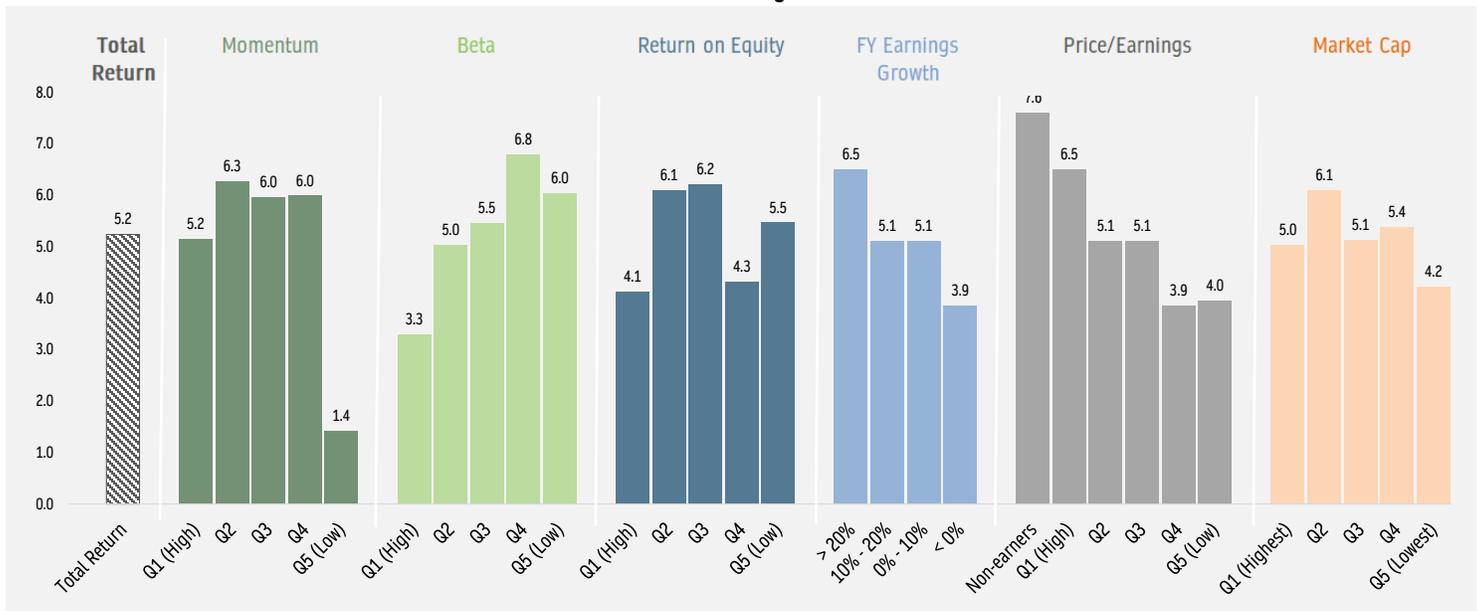

- In small cap, the highest momentum stocks were the best performers, followed by stocks with negative FY earnings growth. On the downside, stocks with low momentum and low P/E fell in the month.
- For the trailing 3 months, non-earners were the best performers, while stocks with lower beta, higher P/E and higher FY earnings growth also outperformed.

### Disclosures:

This research report provides general information only. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or any other instrument.

Sources: MSCI, FTSE Russell, Axioma, Factset

Neither MSCI nor any other party involved in or relating to compiling, computing, or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any of such data. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages. **No further distribution or dissemination of the MSCI data is permitted without MSCI's express written consent.**

FTSE Russell is the source of the FTSE Russell Index returns and the owner of all trademarks and copyrights related thereto. Any further redistribution is prohibited. Russell is not responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.

Axioma factor returns are for the Axioma Medium-Horizon World-Wide Fundamental Equity Model. Axioma is the source of this data and the owner of all trademarks and copyrights related thereto. Any further redistribution is prohibited. Axioma is not responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.

Factset Research Systems, Inc. is the source of all weights, returns and contributions and the owner of all trademarks and copyrights related thereto. Axioma, Inc. is the source for the medium term momentum factor. Any further redistribution is prohibited. Factset, nor Axioma, are responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.
