

Global Equity Index Performance

As of November 30, 2024

- Global equity markets advanced in November with small cap leading the way. The MSCI ACWI Small Cap Index gained 5.2% in the month, while large cap lagged, still up 3.6%. Mid cap returned 4.8%, while micro cap wasn't far behind, gaining 4.5%.
- YTD, large cap is still the standout performer, up over 21%, while smaller market caps have trailed in linear fashion.

Factor Performance

As of November 30, 2024

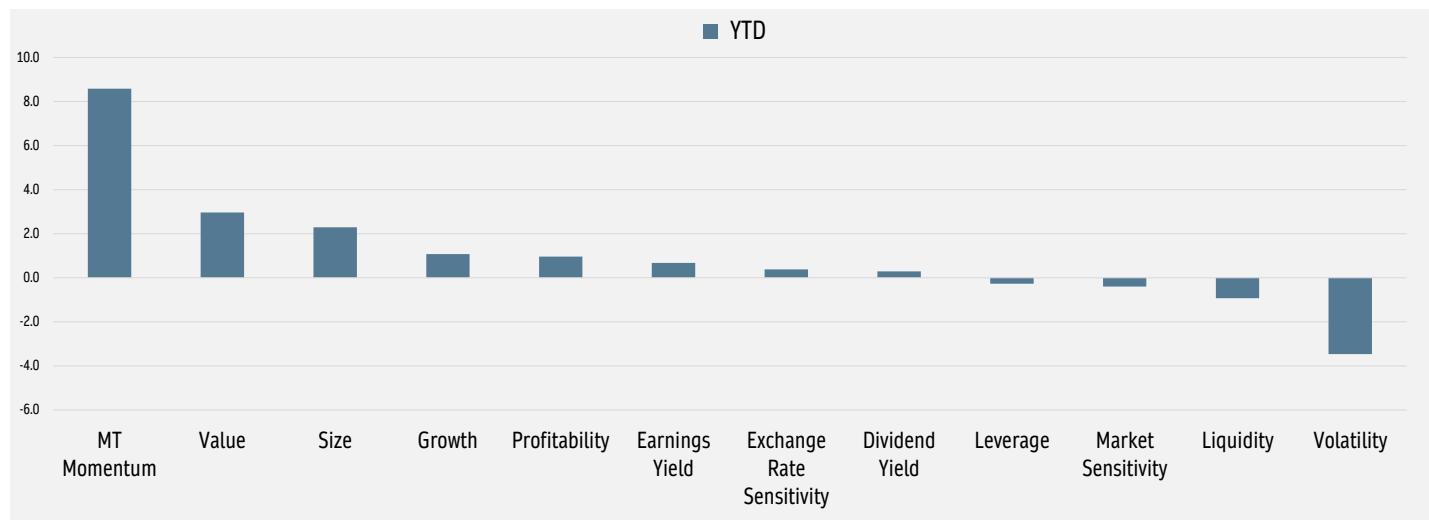

- Axioma factor performance shows the rally was led by market sensitivity (beta), growth, and momentum in November. On the other side, size (larger market caps), leverage, and earnings yield underperformed.
- YTD, momentum is still on top, followed by value and size, while volatility, liquidity, and market sensitivity are the worst performers.

Country Performance

As of November 30, 2024

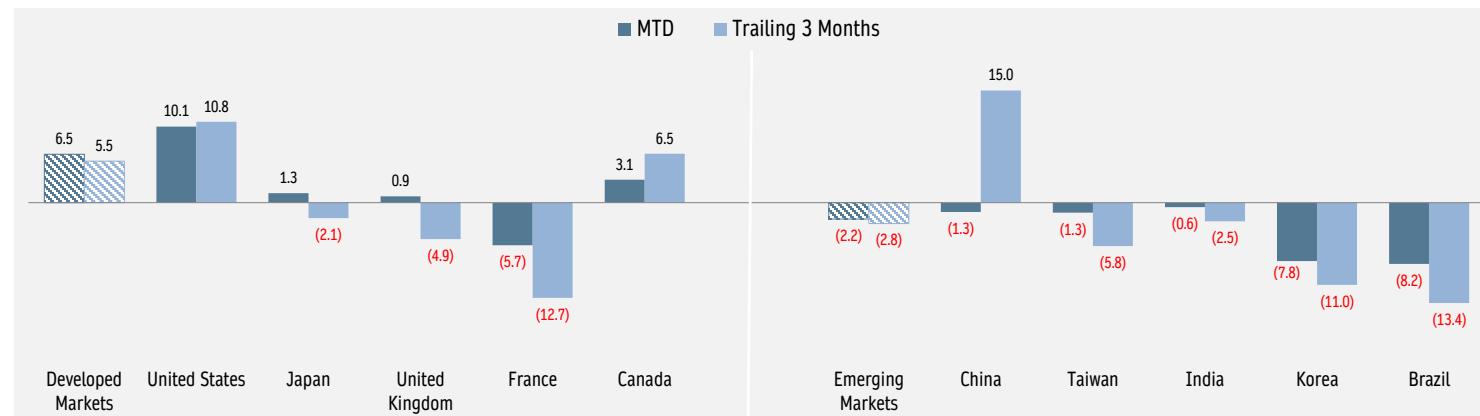

- Strong gains in the US supported index returns in November. The US was up 6.2% in large/mid cap and over 10% in small cap in the month. Emerging markets broadly fell with Korea and Brazil posting the largest declines in both large and small cap.
- For the trailing 3 month period, the US and China have been the best performing countries across size segments, while Brazil and Korea have underperformed.

Disclosures:

This research report provides general information only. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or any other instrument.

Sources: MSCI, FTSE Russell, Axioma, Factset

Neither MSCI nor any other party involved in or relating to compiling, computing, or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any of such data. Without limiting any of the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages. **No further distribution or dissemination of the MSCI data is permitted without MSCI's express written consent.**

FTSE Russell is the source of the FTSE Russell Index returns and the owner of all trademarks and copyrights related thereto. Any further redistribution is prohibited. Russell is not responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.

Axioma factor returns are for the Axioma Medium-Horizon World-Wide Fundamental Equity Model. Axioma is the source of this data and the owner of all trademarks and copyrights related thereto. Any further redistribution is prohibited. Axioma is not responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.

Factset Research Systems, Inc. is the source of all weights, returns and contributions and the owner of all trademarks and copyrights related thereto. Axioma, Inc. is the source for the medium term momentum factor. Any further redistribution is prohibited. Factset, nor Axioma, are responsible for the accuracy of this presentation and reserves the right at any time and without notice to change, amend or cease publication of the information.
